There will also be electric receptacles on 2 of the columns.
- **Ice Dam Project** – Phase One which made it possible for cold air to enter the attic is completed. Phase 2 which insulates the ductwork is on hold. Kent Johnson, Darrel Salberg and myself did a trial run and at that time, it was determined it was too hot in the attic to get a crew of volunteers involved. This will be done later this fall when the temperatures are cooler. Phase 3 which adds more blown in insulation will be determined after the air ducts are insulated. Thank you, Kent and Darrel for your suggestions and help. ~Dennis Dahl~
